

Species of fishes and life-history stages with designated EFH in the Oceanic Zone EFH composite within the waters of Washington State. The Oceanic Zone is those waters and biological communities living in the water column more than 20 meters (11 fathoms) above the continental slope and abyssal plain, extending to the westward boundary of the EEZ. (? = uncertain).

Species	Adult	Spawning/ mating	Juvenile	Larvae	Eggs/ parturition
Soupfin Shark	x				
Spiny Dogfish	x				
Pacific Rattail				x	
Cabezon			?	?	
Kelp Greenling			x	x	
Pacific Cod	x	x	x	x	
Pacific Whiting (Hake)	x	x		x	x
Sablefish			x	x	x
Aurora Rockfish				?	
Blackgill Rockfish			?	x	
Canary Rockfish				x	
Darkblotched Rockfish			x	x	
Longspine Thornyhead				x	x
Pacific Ocean Perch			x	x	
Sharpchin Rockfish				?	
Shortspine Thornyhead				x	x
Widow Rockfish			x	x	
Yellowtail Rockfish			?	?	
Arrowtooth Flounder				x	x
Dover Sole				x	x
Flathead Sole				x	x
Pacific Sanddab				x	?
Petrale Sole				x	x
Rex Sole				?	
Pacific Salmon Species					
Chinook salmon	x		x		
Coho salmon	x		x		
Puget Sound pink salmon *	x		x		
Coastal Pelagic Species					
Northern anchovy	x	x	x	x	x
Pacific sardine	x	x	x	x	x
Pacific mackerel	x	x	?	?	?
Jack mackerel	x	x	x	x	x
Market squid	x	?	?	x	x

* EFH for Puget Sound pink salmon does not extend south of Cape Flattery, Washington.
